PROFESSIONAL SUMMARY

Performance-driven Computer Engineering student at Universite Francaise d'Egypte (UFE) and recipient of the Schneider Electric & UFE Excellence Scholarship. Specializes in algorithmic problem solving, C++ systems programming, and AI architecture research — with active focus on Machine Learning and Deep Learning workflows. Active ICPC competitor with 200+ problems solved on Codeforces. Mathematical foundation built through STEM education. Having a strict goal of becoming a research engineer with solid technical experience and active real-world projects.

EDUCATION

Universite Francaise d'Egypte (UFE) — Cairo, Egypt *Sep 2025 – Present*

B.Sc. Computer Engineering

- Schneider Electric & UFE Excellence Scholarship — awarded for outstanding academic merit
- Relevant Coursework: Calculus II, Linear Algebra II, Logic Design I, Programming through Python I

Obour STEM School — Obour, Egypt *Sep 2022 – Jul 2025*

High School Diploma, STEM Track | GPA: 3.83 / 4.00

- Completed Capstone projects requiring cross-disciplinary scientific research and engineering methodology
- Developed rigorous mathematical and analytical thinking through intensive STEM curriculum

COMPETITIVE PROGRAMMING

Active Member — ICPC UFE Community *Nov 2025 – Present*

Codeforces Profile | Algorithmic Problem Solving & Data Structures

- Solved 200+ problems on Codeforces; mastered Level 0 and actively progressing through Level 1
- Optimizing for execution time and memory efficiency using the C++ Standard Template Library (STL)
- Active training focus: Graph Theory, Dynamic Programming, Number Theory, Recursion, Backtracking

TECHNICAL SKILLS

Programming Languages: C++ (Advanced Logic & STL), Python (Core AI concepts Implementation)
Core Foundations: Algorithms & Data Structures, Machine and Deep Learning, Linear Algebra
Tools & Platforms: Git & GitHub, VS Code, Google Colab

CERTIFICATIONS & HONOURS

- Schneider Electric & UFE Excellence Scholarship Attestation (Sep 2025)
- Introduction to AI - 365 Data Science (Mar 2026)
- Introduction to Python — 365 Data Science (Mar 2026)
- Deep Learning with PyTorch — 365 Data Science (Mar 2026)
- Git and GitHub — 365 Data Science (Mar 2026)

LANGUAGES

Arabic: Native / Bilingual proficiency **English:** B2 — Professional Working proficiency **French**: Elementary proficiency
